WASHINGTON, April 11.—(Exclusive

Chief Recruiting Officer of the War
Department today, "I cannot remember when there was a greater desire on
the part of young men to enter the
army. In fact, our greatest difficulty
is to keep them out, for in their anxiety to enlist, they will resort to all
sorts of tricks to overcome legal and
other obstacles. We are constantly
running across cases of boys of seventeen, eighteen and twenty, making
false declarations as to ages, and they false declarations as to ages, and they even go so far as to bring in fake parents to give consent to enlistments.

"The average rejections are seven for each acceptance, and this shows how pientiful good men are. The average for years was about one acceptance for every four applicants. Surprising Testimony Given by Gen Schofield Before the Senate Committee on Military Affairs-Army not Organized Scientifically-The South

terms?

Gen. Schofield: No, sir, you will have to get rid of that intolerable condition by which this man, close to the President, the only man who is available to do these things, is a man whom the President does not talk to except to terrorize him. The result is bad, very bad. The President feels the need of such a man, as have other Presidents whom I have known. They would say: "I cannot do these things; I must have a military man to help me." Then, in that situation, he perhaps sends for "Colonel" or "Major So-and-So," and he finds that he is a bright young fellow, and he knows about these things, and in a few days it gets to be known that "Tom So-and-So" is commanding the army.

in a few days it gets to be known that "Tom So-and-So" is commanding the army.

In reply to a question by Senator Scott, calling attention to Gen. Miles's statement to the effect that the proposed legislation would be to Germanize and Russianize the American Army, Gen. Scofield said: "I am not afraid of that. I think we might Germanize other things a little more advantageously."

Remarking upon the provisions of the bill for a four years' term as chief of staff, Gen. Schofield opposed it as coming from "that fountain of error, the Congress of the United States, which provides for the retirement of the very best men just when they come to be of the age when Yon Moltke won his greatest triumphs. I am not superannuated," he continued, "and still I have been retired for a long time."

Gen. Schofield expressed the opinion that during the War of the Rebellion, the southern system of selecting high officers was far better than that of the North. Speaking of the rank of lieutenant-general, he said he would give the proposed chief of staff even higher rank, adding:
"I would make one general at the head of the army, and I would have three lientenant-generals, and then the proper number of officers in the grades

They carried off the greater proportion of the best blood that we had, to tell the truth and shew organized their army truth, and they organized their army scientifically."

General business in this city has been practically undisturbed by the disorders, which are almost wholly confined to the district around the Maison du Peuple. Elsewhere the streets and boulevards have their customary appearance. People are on the streets and the cafes and restaurants are busy. So far as Brussets is concerned, it is felt that the authorities are quite masters of the situation, but should a general strike be declared and be generally followed, which is considered doubtful, a dangerous situation might arise, as troops would be needed everywhere and would not be massed at any particular point. It transpires this particular point. It transpires this morning that at a Cabinet council held yesterday at which King Leopold pre-sided, it was decided that the discussion of the suffrage question should be fixed for next Wednesday. Girl Had Refused to Allow an Operation.

He Decided to Kill Her as the Only Way Out of His D.fficulty.

Joseph Miller at 12 o'clock confessed to committing the murder of Carrie M. Jennett.

After being in the sweat box an hour and twenty minutes, Miller broke down and confessed to the crime. Assistant Prosecutor Merriam, three officers and the official stenographer of the police department were present. Miller said that he had had illicit relations with the girl, and was responsible for her condition. He said he offered to send Miss Jennett to a lying-in hospital, but she refused to go, insisting that he leave his family and go to some other city with her. This he would not do.

Wednesday night when he started from home for the lodge meeting he had an engagement with the girl and intended to kill her. He took the hatchet that was found by the officers with him. He secreted this on Seventh street on his way to the meeting. When he left the lodge rooms, he secured the hatchet again and proceeded to the corner of Fourteenth and Warren avenues, where he met Miss Jennett. They walked over to Thirtzeenth street and out to where the killing was done.

Miller says they sat down on the sidewalk and talked for a while, the girl urging him to abandon his family and leave the city with her. He then whipped out the hatchet and struck her in the head. When asked why he multilated her so, Miller said he had no recollection of anything after the first blow until he found himself wiping the blood off his hatchet on the grass in the vacant lot.

Monday night, Miller said, he arranged with Miss Jennett to meet her at the corner of Warren avenue and Fourteenth street about 11 o'clock wednesday night. They were to discuss what was best to be done in view of the expected birth. He said he faxed the hour at 11 because he had to attend a meeting of the Wolverine Circle, while she said she was going to a committee meeting at Gariand Rebekah Lodge.

"When did you make up your mind to kill the girl." Miller was asked.

"Last Wednesday afternoon," he answered. "I was thinking of what could be done, and of my being married and with a family,

swept over me with irresistible force then.

"I felt that I had to do semething," he went on. "I felt that I had to get rid of her. She was infatuated with me, and continually chasing me. If I gave a concert anywhere she was sure to be in the neighborhood."

A stenographic record of the questions and answers was made.

Throughout the recital Miller was remarkably calm, betraying no emotion and but comparatively slight nervousness. He guiped constantly over the questions, and passed his hands over his baid head a good deal, but a person seeing him through the window, and not hearing what he was saying would scarcely have guessed he was confessing to a horrible crime.

WASHINGTON, April 11.—Secretary
Root is not now in a position to take
any action with regard to the allegations of extreme measures on the part
of Gen. Smith, who commanded the
American troops on the Island of Samar, which had been made public at
the Waller court-martial at Maniia.

The Secretary said today that if Gen.
Smith had committed a breach of the
rules of war in the Samar campaign
the War Department will take steps to
discipline that officer. Up to this time,
it is said, the statements concerning
Gen. Smith's administration have been
made only in the taking of evidence
at the court-martial, and have not been

Adaline Schaefer and her mother, Mrs.

Eva Miller who went to Ingleside on

Tuesday morning and mysteriously
disappeared, surprised the detectives
and others who were searching for
them by quietly stealing to their
homes today. The explanation given
for their absence is that Mrs. Miller
was taken ill on Tuesday evening, and
the two women took rooms in a lodging house so as not to alarm a younger
daughter by going home at once.

SENT TO COLOMBIAN REBELS. BAN FRANCIBCO, April 11.—Twenty-five cases of munitions of war were shipped to the Colombian rebels from this port on the City of Sydney last Tuesday. The Consul for Colombia received word from New Orleans that the arms and ammunition were on the way from that city, but did not prevent the shipment on the steamer. He appealed to the Collector of the Port in the matter.

The collector wired to Washington for instructions, and today received answer that he should prevent any violation of the neutrality laws. Further shipments are expected, and in view of the fact that the authorities of the United States at this port have been advised to take a part in the matter, some trouble may be experienced in getting the arms on any outgoing steamer.

VANCOUVER, April 11.—(Exclusive Dispatch.) In view of the adoption of a militia reserve in Canada and the increase of the standing militia from 60,000 to 100,000 men, an arsenal may be established in British Columbia. A special dispatch from Oftawa contains the information that, in the House of Commons vesterday. Hon. Dr. Borden. Commons yesterday, Hon. Dr. Borden, Minister of Militia, announced the ef-ficiency of the force was to be in-creased by the establishment of rifle clubs throughout the country, from which recruits could be drawn for vol-

which recruits could be drawn for volunteer service.

A contract had been entered into with a company to manufacture Ross rifes in Canada, which would turn out about one hundred and fifty stands of arms yearly. This was to be located at Quebec, besides the arsenal there, which was being enlarged and capable of turning out 7,000,000 carridges yearly, or 20,000,000 full time. In addition to that, it was proposed to establish another arsenal in this province, as more magazines for ammunition would be required. The arsenal would be built in Vancouver, which is the center of the military operations of the province, and where was recently erected a massive drill hall, now being used as the headquar-

by court-martial on the charge of exe-cuting Samar natives without trial, addressed the court today. The major said he was either right or wrong in his actions, and added that he desired to cite five precedents which came un-der the head of his own case. He al-luded to the naval battle of Santiago and the humanity he had shown the Spaniards who were captured, and said he had had many letters from Span-lards thanking him for the kindness he had shown them.

Continuing, the major said that in 1882 he was with the British forces in Egypt where Arabs captured pickets of Bengal cavalry, decapitated the prisoners, and placed their heads on poles. Maj. Waller said all the Arabs were caught and shot without trais. During the campaign in China, the Chinese mutilated the dead and tortured the wounded to death. Consequently, when a Boxer or a fanatic was captured he was executed immediately without reference. This was true in the case of the troops of every nation in China. It was true during the three weeks he commanded troops there, but the same thing occurred there when he was no longer in command.

"It is impossible to conceive such treachery as that of the natives of Samar," said the major. "They revel in blood, and have an appetite for wanton sacrilege of the human body. These fiends stole Capt. Cornell's class ring, filled the soldiers' bodies with jam and jelly, and attempted to murder my command. I shot them. I honestly thought then that I was right, and I believe so now. Neither my people nor the world will believe me to be a murderer."

Capt. T. Marix, Marine Corps, representing Maj. Waller, in a forceful argument maintained that Waller's actions were justified by martial law, quoting numerous authorities on the subject. Capt. Marix also said he regretted that the prosecution had seen fit to call Gen. Smith. He claimed that all the testimony went to show that the major was justified. "I supposed that ended the matter, and left no hope. Mr. Folk, whom one of the newspaper men called over the phone, thought the same and so did the prisoner.

"I don't hold myself to blame. The Governor is the one who had the authority, and he is responsible for the whole incident."

Dist.-Atty. Folk said: "There can be no doubt of Flutcher's guilt. He was given a fair trial before an impartial jury, and his case was fully examined by the Supreme Court.

"When Detectives McNeil and Harrington came to my house last night at 11 o'clock and reported that they had just discovered witnesses, who, it was alleged, through fear, had been restrained from appearing at the trial. At 5:50 Sheriff Dickmann told the condemned boy to prepare for the march to the gallows. The next few minutes were spent in prayer, Flutcher praying aloud in a firm voice. When he had finished, he turned to a deputy and placed his arms behind him.

"We'll go now," he said, quietly, and the rope was tied over his elbows.

The boy walked to the gallows with a steady step, and when asked by the Sheriff if he wished to say anything, began a speech that occupied three minutes. He declared that he fired the fatal shot, but disavowed any intention of murder. His object, he said, was merely to disarm his assailant. Flutcher concluded as follows:

"Without the desire to reflect on the men who send me to this fate, the worst that can befall a mortal man, I want to say that not only have I been prosecuted, but relentlessly persecuted as well.

He then read Mr. Depew's remarks regarding the Goebel law, and said there was not a single statement of fact in it. He considered Mr. Depaw's remarks due to the "exuberant fancy" of the New York Senator.

Mr. Depew, who entered the chamber while Mr. Blackburn was speaking, said he based his statement upon newspaper reports at that time.

Mr. Blackburn then rehearsed what took place in Kentucky when Taylor and Goebel were rival candidates for Bovernor. He closed his statement by asying that, in order to assist the senator from New York, if there was a election of Senators by the people, in exception might be made as to New York, so that the railroads of that tale, or more particularly, the New York Central, might have a representative in the Senate Chamber.

PACIFIC MAIL AND SMUGGLED CHINESE.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, April 11.—[Exclusive Dispatch.] There is a great fuss in the Senate over the charges made by Chinese Inspector Dunn of San Francisco that the Pacific Mail Steamship Company has been actively engaged for years in smuggling Chinese into the United States. Inspector Dunn made this charge to Senator Penrose, some time ago, and Penrose used it against the Pacific Mail Company upon the floor of the Senate. As soon as the charge was made it was denied by Vice-President Schwerin of the Pacific Mail Company and his denial was read upon the floor of the Senate by Senator Dillingham. To this Dunn replied that the fact that the Pacific Mail Company was 3 smuggling Chinese and making many thousands of dollars per year in the process was communicated to him by Robert H. Swayne of Swayne, Hoit & Company, San Francisco, to whom the secret was given by Schwerin at the Coronado Hotel. Swayne today sent a telegram here denying that he ever made any such statement.

It is understood that Dunn some time ago made a confidential report to the Treasury Department on the alleged smuggling by the Pacific Mail Co., and an effort will be made to have this report laid before the Senate. There is long-standing enmity between Dunn and the Pacific Mail Company, which has resulted heretofore in the company asking for Dunn's removal.

CAPABLE OF DEVELOPMENT.

IBT THE NEW ASSOCIATED PHESS—A.M.:

WASHINGTON, April 11.—When Gen. MacArthur resumed his testimony before the Senate Committee on the Philippines today, Senator Dubois asked a number of questions concerning the efficiency of Philippines labor. The general said there were about 400 natives employed in a certain corral in Manila, and for this work they received \$15 in gold per month, while Americans received \$40. The Philippinos were, he said, quite efficient in this work, and while the pay was entirely out of proportion to that received by the Americans, it was so much more than they had been in the habit of receiving that they were spurred to extra effort. He also expressed the opinion that the natives would be found equal to the task of cultivating the agricultural lands of the islands, if sufficiently paid for their services. Still, it was possible that this labor might not be equal to the demands of American and European exploiters. In this connection he repeated his conviction that it is not desirable to unduly exploit the islands, and if this were to be done excessive wages would be necessary to secure results.

Replying to Senator Patterson, Gen. MacArthur said there were few factories in the islands, but that he believed that the Filipinos were capable of development as artisans. "They are successful," he said, "wherever definess of touch is necessary. They are successful, he had, artists, as they are full of romance and poetry, and will generally succeed as actors and musician. Indeed, there is scarcely a Filipino that is not a musician. There is, in brief, no question of the power of the Filipinos from Mr. Patterson, the witness detailed the situation at Manila when he arrived there in July, 1838. He said that at that time the natives were besleging the Spaniards in the city, in connection with a few American troops. The state of amity between the two forces, he said, was good, and the Filipinos as CAPABLE OF DEVELOPMENT.

ture refined sugar "below the cost of granulated sugar made from imported raws."

He read the evidence of all the beet-sugar experts to the effect that the proposed reduction in the Cuban tariff would not lower the prices of refined sugar, and argued that therefore the beet-sugar industry would not be injured by the proposed legislation. He devoted much time to the proposition that the Cuban planters and not the sugar trust would get the benefit which would accrue to us from reciprocity with Cuba. He reviewed the case of the Blaine reciprocity treaty, which existed from 1891 to 1894, showing that while our exportation to all other countries fell, off materially during this period, owing to the depreciation of silver and other causes, that our trade with Cuba more than doubled, and that our exports to countries with which we had reciprocity agreements were the only ones that showed an increase. Reciprocity, he declared, would give the United States a monopoly of the Cuban markets. A moral obligation, he said, rested on the fact that the Platt amendment was accepted only on the virtual promise of tariff concessions. In closing, Mr. Long said:

"That it is our duty to complete the work undertaken in Cuba is recognized by every patriotic American. We can discharge that obligation and still do no harm to American industry. Special interests have endeavored to prevent action and tried to alarm Congress by the cry that their particular industries will be ruined if reciprocity with Cuba is adopted. The facts do not warrant this assumption, and if this Congress does its duty, as did the Congress hat passed the resolution of intervention, it will provide before the session ends for reciprocity with Cuba, which will bring happiness and contentment to the people of that island, further promote the prosperity of the people of the United States, and honorably finish the work undertaken when the war with Spain began."

"I did not give specific orders to

command an intruder three times to
halt, and then shoot if he did not halt.
But I would have given the order any
minute of the day if it had been necessary. Our men on the line had submitted to so many indignities from the
Filipinos that the sentinels must have
known that any one attempting to pass
the line was doing so with hostile intent."

In the face of the existing vacancy in the post of Archbishop of Manila, there is no one to speak to the authorities here upon these questions except Bishop O'Gorman and Mgr. If there were an Archbishop of Manila, the disposition of the authorities would be to deal with him directly in the matter, inasmuch as he would be the one person legally empowered to transfer title to the friars in lands which are nominally held in his name. But in the absence of such a legal custodian in Manila, it may become necessary for the United States government to deal with the Vatican either directly at Rome through Gov. The boy was taken sick as a result. The stomach was relieved of its surplus of atmosphere, but the boy did not get well. This went on, until several days ago, when a physician was called in. He made a thorough examination of the case, and made the astonishing discovery that the pressure on the boy's stomach had been so strong as to dilate the walls thereof, and that the lad's food receptacle was nearly a third larger than it should be. The enlarged stomach necessarily encroached on other organs of the lower abdomen, and the walls, weakened by stretching, do not contract sufficiently to perform their duties in digestion. The lad's condition is very critical.

WEEP OUT ALL UNDESIRABLES. K Senator Stewart of Nevada, speaking on Thursday in opposition to the Chinese exclusion bill in its present form, stated the case correctly when he declared that one object of our people now is to keep out Chinese coolle labor, and that "this could be ione by a law very different from the ending bill, which, if enacted, would

Another Senator pertinently de-clared that "it is not race, but it is degradation that we ought to strike we can. The objection to the legis-lation proposed," he continued, "is tain that every Chinaman should be if he possessed every known virtue, and that all other foreigners should be admitted, even though they may have every known vice." This the

republic is founded."

It must be confessed that there is force in these objections. It is very generally conceded that the people of the United States must and should single out the Chinese as the only cluded? While a great deal of the valuable time of Congress has been pending Chinese exclusion bill, little try the various other classes of formany respects as the Chinese, and in some respects more objectionable.

The discussion which has followed the decision in question is for the most part irrelevant, because of the incorrect assumption that the question passe upon involved a new principle, or issue; whereas it was merely an old question presented in a guise some

To state the matter in a few word ment's reflection will suffice to show that this question is, in effect and in fact, the old familiar question as to the right of men organized into trades unions to strike; a question which court, and which has never been seriously questioned by anybody.

The right of individual, or associa tions of individuals, to quit uncongenial or distasteful employment be ng universally conceded, it follows logically that individuals or associaployer of their intention to quit his ployés have as clearly a right to threaten to strike as they have to strike—the latter right being nowhere and by nobody denied. "A labor orendowed with precisely the same legal right as is an individual to threaten This is a fundamental doctrine of American institutions to which all cludes the right to threaten to strike as the greater includes the less."

In all this there is nothing reall new. The courts have invariably held—what it requires no Daniel to perceive—that employes of every de or white, American or foreign may quit work individually or colcourse, if they may quit work, they may also threaten to gult work. But Senator characterized as "a stab at it must not be forgotten, in this immediate connection, that the right of and necessarily implies, the right of the employers to discharge employes, A rule that will not work both ways

Ther is quite a movement among the members of the Americus Club of Pasadena to correct the impression that the organization is to be used as a Gage club during the coming campaign. This impression has gone abroad owing to the action of President Dobbins in appointing a majority of supposed Gagemen on the delegation to the San José club convention. There is a strong anti-Gage sentiment among the 250 anti-Gage sentiment among the 25 members of the club, and while they, with all other members, feel that the president's proper course was to call an election and permit them to have a roice in choosing the delegation, their protest against his action is taking a practical turn. Instead of launching peaceful manner to accomplish much nore than could have been attained

more than could have been attained by any other means.

The club is primarily a Republican organization. Its tenets do not permit it, as a body, to take up the fight of any one side in a factional contest. Any attempt of this nature arouses the resentment of those who have the best interests off the club at heart. Many members who were supposed to lean toward the support of Gage have protested against the apparently arbitrary attempt of a few men to dictate the policy of the club. They know that, while one faction might gain something in this manner at one time, the tables

Al Malaikah Temple's Big Initiation.

Nearly a Hundred Rushed Over Burning Sands to Rich Oasis.

Mystic Shriners of Al Malaikah Tem-ple had a great day yesterday at Has-ard's Pavilion, the occasion being the initiation of nearly one hundred candi-

The affair began with a business session at 2 p.m., at which the ninety-five applicants were passed upon, and continued last night with the initiation ceremonies and a demonstration of the work of the order. The wind-up was a banquet in the pavilion annex.

The number of candidates admitted yesterday is the largest ever voted upon in Al Malafkah Temple at one time, and Shriners generally are congratulating themselves that yesterday marked one of the greatest occasions in the history of the order on the Coast.

Very conspicuous in their brilliant and oriental costumes were the twenty-five members of the Arab's patrol, which executed its skillful maneuvers on the floor under the direction of Perry Weidner and to the stirring music of the Shriners' Band and orchestra. The applicants for admission were from all parts of Southern California, Arizona and New Mexico and numbered many prominent men. About five hundred Nobles gave them welcome and inducted them into the order, among these about one hundred visitors. Fred L. of spontaneous toasts, songs and cheers.

The long banquet hall was made beautiful with American flags, which were used so lavishly that neither walls nor ceiling were visible. At one end of the hall the New Era Quintette, a young ladies' orchestra, furnished music in keeping with the spirit of the joyous occasion.

There was only one speech, and that was by 'st Potentate Fred Smith, who gave the candidates a heart-to-heart talk. "You have the proud distinction," said he, "of being the largest body of candidates ever initiated into this order at one time, and you may be proud to learn that In personnel you are second to none. I congratulate you that you had deferred joining this order until it was possible that you might receive the degree under this administration, "Have you ever learned a more useful lesson than you did tonight? You will carry it in your minds until the black camel shall bear you away to your last oasis. You are welcome—as welcome as the checks which came with your applications, and which paid for the feast we are eating."

RAILROAD NOTES.

RAILROAD NOTES.

The Southern Pacific has issued a tariff sheet of more than usual interest to merchants shipping freight over that line and the Maricopa read to Phoenix. This tariff sheet cancels the combination rate between the Southern Pacific and Phoenix and Maricopa. The rate now is a combination of the two "locals," that is the rate via the Southern Pacific to Maricopa plus that from Maricopa via the Phoenix and Maricopa. From Southern California points this increases the rate generally by a substantial amount. The rates become effective April 25, or next Tuesday week. It is construed by railroad men to mean some friction between the two roads in question.

The Los Angeles Railway gangs are about all concentrated on the short line to Pasadena. On Thursday over 6000 feet of rails were laid on this line east of Eastlake Park. This rapid rail laying will go on until the Inne is all laid.

The Santa Fé has a train of nine cars

terday.

G. R. Joughins has been appointed mechanical superintendent of Southern California Santa Fé line, with headquarters at San Bernardino, vice G. W. Smith, resigned.

"I wish I knew of a good way to raise bread," remarked the wife as she tackled one of her biscuits at the breakfast table.
"Why not try a derrick, my dear?" suggested the brutal other half of the combination.—[Chicago News.

Patients Drink Contrary to Doctors' Orders

Patients Drink Centrary to Decters' Orders

Bad food habits hurt the habitue and sometimes affect others. A mother was in such a miserable condition from coffee drinking that when her baby was born—but let her tell her own tale.

"I steadily grew worse. When baby was born it was a skeleton of mere bones, and so weak and puny that its little life soon fickered out. I had been suffering for several years with stomach trouble and nervous diseases, the doctor said 'brought on by coffee.'

At times I would swell up until I could hardly breathe, but I poohed when the doctor told me coffee was the cause of it all. Why, I had used coffee for years without seeing that it did me any harm, so the silly idea of a fogy doctor was not going to make me give up my favorite beverage and I kept on using it on the siy unknown to him, while he gave me every sort of tonic and pills to attempt to cure me and get my nerves in a healthy condition.

After baby's death I was sick in bed and the doctor insisted on keeping coffee away from me, He put me on Postum Food Coffee and Grape-Nuts. I shall never forget how I relished the first cup of fragrant, black Postum and how good the Grape-Nuts. I shall never forget how I relished the first cup of fragrant, black Postum and how good the Grape-Nuts. I shall never forget how I relished the first cup of fragrant, black Postum and how good the Grape-Nuts. Slowly I began to gain in strength and flesh, and my mind began to clear up. My stomach gave me no pain, and the doctor was greatly surprised at the change caused by the food and drink and pleasantly named them the 'magic nerve restorers,' for he says they built up my nerves and strength as nothing else on earth could.

It seems to me I am twice as large and strength as nothing else on earth could.

and strength as nothing else on could.

It seems to me I am twice as large as I used to me, but it is good, healthy dissue. I have been made a well woman by Postum Food Coffee and Grape-Nuts." Name given by Postum Co., Battle Creek, Mich.

Saturday, April 12.—The remarkable offering of beautiful \$1.00, \$1.25 and \$1.50 novelty silks holds good until the store closes this evening. If you want a new waist don't blame us for not giving you 'fair warning".

Men's Neckwear Sale Today.

Our neckwear buyer struck a maker with a lot of little remnants of tie silks such as usually go into 50 cent ties—not enough of any one kind to be commercially worth a cent. "What will you charge to make up these little pieces" said—the buyer. "So much" said the maker. "Go ahead" said the buyer. That's the way we happen to be selling this lot of 50 cent ties for a quarter. Plain or fancy colors, all shapes and kinds. No more at this price when these are gone.

> Women's Hose Ouarter Dozens Only 50c.

Plain, solid, long-wear stockings or the pretty new lace effects in plain black—fast colors. Well shaped and splendidly good qualities, in fact you can compare them with the best 25c a pair sorts around town; think of it, three pairs 50c.

In Trinity Church, there was a good attendance of ministers and lay delegates.

The address of P. M. Daniels on the occupancy of new territory by the church, and of U. Knoch, on pastoral visiting as viewed from the pew, were of unusual interest.

Today the theme of the addresses will be the "Relation of Pulpit to Pew, and Vice Veras." the "Model Steward" and other interesting topics. The election of delegates to the annusi conference will also take place. There will be preaching at 11 a.m. by Rev. T. H. Wilson: at 3 p.m., by Rev. J. D. Fraser, and at 7:30 p.m. by Rev. J. D. Fraser, and at 7:30 p.m. by Rev. Guyton Fisher. The Sunday services will be as follows: Love feast at 3 a.m., led by Rev. J. F. G. Finley; sermon at 11 a.m., by Rev. Sam P. Wright; Sunday-school mass meeting at 3 p.m., with addresses by Revs. George C. Harris, J. L. Jones, Claude, Thompson, C. W. Harris and R. R. Raymond: Epworth League rally at 6:30 p.m., to be addressed by Boss Duncan, W. L. Whisuant and J. Healy; sermon at 7:30 p.m. by Rev. G. L. Taylor, followed by the Lord's Supper, Other city pulpits of the denomination will be supplied by visiting pastors.

GUILDS OF ST. JOHN'S.

St. John's Episcopal Church will held and the supplied by visiting pastors.

The annual meeting of Christ Church parish, Episcopal, was held in the guild hall of the church on Thursday sented, all of a very interesting nature, and showing a wonderful growth in the various departments of church work.

The receipts for the year surpassed all former records, having amounted to \$9558.40: disbursements, \$9163.74: balance in treasury, \$715.66. The Sunday-school shows an increase of nearly 100 per cent., and emphasized the necessity of enlarging the present cramped quarters. All the guilds and societies made encouraging reports.

Rev. Mr. Hughes read his report of effective work done in the Church of the Neighborhood, and a deficiency in the fund to meet his expenditures was at once made up. The work is to be continued, with the helping hand of Dr. Dowling and members of Christ Church.

CHRISTIAN ENDEAVOR.

The debtor class includes everybody. We all owe somebody something. No man is without debt to his fellow-men. There are obligations resting upon each of us which cannot in honor be escaped. So that every gift we may make to the world, no matter what the nature, is only a paying back of gifts we have received. This is the generosity there is a considerable ment of common justice—a paying back of plain obligations.

What makes money a valuable gift is its preclousness to us; that we are willing to give it is a sign of our real interest in the object to which the gift is made.

all when we think of Jesus Christ, the divine agent. It is divine power that works in daily order, and divine choice can alter that order in an individual instance. Hence, let but the delity of Jesus Christ be granted, and the whole matter is explained.—[William M. Tay-There is nobody too poor to make an offering for a brother's need that will best help that brother and best please the Lord.

Paul wrote of the Macedonian churches that they "first gave their own selves." Frequently the New Testament says of Jesus that he "gave himself." This truth is fundamental to all good giving. There should be the gift of self before the gift of possessions; the latter inevitably follows upon the former. As Lowell wrote; "The gift without the giver is bare."

To make a good giver you must catch him young. The habit of giving is not easily acquired in later life. A serious wrench of lifelong customs and modes of thought is needed to convert into a philanthropist a man who has spent all his years in pursuing self-interest. If we do not learn to be good givers in the years of youth, when we have liftle, the probabilities are strongly against our becoming such in the years of age, when we have much.

The method of learning to give is the same as the method of learning to walk or to swim—strike out and begin. The sooner this beginning is made, the more casily and thoroughly the practice will be acquired. A volume of theory is not worth a day of practice in any of these three arts, walking, swimming and giving.

That man has an inadequate idea of life who thinks that the universe is lintended primarily to minister to him. He certainly has not put away childish things, for this is the notion of the baby in arms, which thinks that everybody and everything exists only to serve him. FROST AND NO FROST.

Florida Orange Grower Here, Telling About Conditions - Florida Grape Friut and Florida Water.

One of the pioneer orange growers f Florida—George Frost, well known in Boston business circles—is staying at the Angelus, and is preparing to make a tour of the orange district of Southern California. Before the great frost of seven years ago, which killed nearly all the Florida orange stock. he owned a hundred-acre orchard, bu since then has cultivated only twenty

Mr. Frost is one of the first experi-menters in the plan of building sheds over orange orchards to protect them from freezing. He has had now for two winters two acres under cover, but Florida has suffered no extreme cold, he says, in the last two seasons, so the scheme has not yet been thor-oughly tested. The protection con-sists of a tight board fence fifteen feet high around the entire orchard, covered with boards at intervals of eightsen inches. To supplement this semi-open covering in very cold

weather, numbers of fires are lighted KUENRICH SUPPORTED. in the grove. The sheds cost about \$1000 an acre, but Mr. Frost claims that they are great protection against damaging winds and pilferers, as well as against the arch enemy, frost, and that the plan redeems much of its cost in the end. Shedding orange groves is not yet widely practiced in Florida

used for growing pineapples. In this case the fences are but seven feet in height.

Tight sixteen-foot fences on north and west exposures are in general use, however, as the killing cold in Floridacomes usually from the fierce gales that follow winter rains.

"This last season has been very prosperous in Florida," said Mr. Frost yesterday. "The temperature did not go much below 22 deg. this winter, and little fruit was lost. The orange growers are beginning to get back where they were before the great freeze seven years ago.

"The orange industries of California and Florida scarcely ever come into direct competition, for the bulk of our crop is disposed of by January, when California is just coming into the market in force.

crop is disposed of by January, when California is just coming into the market in force.

"This year Florida prices have been \$1.15 to \$1.50 per box on the tree, our oranges grading from 128 to 200 -per box. A few run from 96 to 112. We cannot grow the California Washington navel in Florida at all, but we are far ahead of you in the production of grape fruit and tangerines. Everybody acknowledges that there is no comparison between Florida and California grape fruit, in size, but especially in quality. Why, our grape fruit is bringing \$9 a box this year, and a couple of years ago it sold as high as \$13 and \$14 a box. They run from 46 to 64 in the box. Our tangerines are twice as large as those grown here, and sell at from \$3.50 to \$5 a box.

"In Florida we have an abundance of water, available at any time with a small pumping plant, and we are prepared to irrigate during the time the fruit is setting, if the season has proved somewhat dry."

It is a coincidence that George Frost, pioneer orange grower of Florida is about to visit George Frost, pioneer orange grower of Florida is about to visit George Frost, pioneer orchardist of Riverside, the two being strangers, one to the other, though they have corresponded considerably.

of directors yesterday afternoon at a special meeting called by the accused. Four of the five directors were present, as follows: P. M. Kuenrich, Flora Schliebitz, Theodore Nau and Edward Mathle. Director W. S. Wright was absent.

First a resolution was adopted declaring the belief of the board of directors that the charges preferred are not true, and expressing confidence in the president's ability and integrity. By resolution it was decided to employ an expert accountant, selected by a committee of stockholders, to examine the accounts of the corporation, and report on their condition. Director Mathle, who heads the opposition to Kuenrich, voted against both resolutions.

President Kuenrich named the following stockholders as a committee to choose an expert accountant: C. F. C. Klokke, Abe Haas, F. S. Hutchins, Theodore Nau and Sam Sullivan. Mathle declined an invitation to serve on the committee.

Mathle declined an invitation to serve on the committee.

It is stated that of the stockheiders who signed the charges against President Kuenrich and the request for his removal from office, all but Mathle, his relatives, and Herman Boettcher have withdrawn their signatures from the document. The stand of the board of directors on the question makes the courts the last resort for the aggressors in the family row.

mai schools do not teach, and that, therefore, these institutions are not fulfilling the purpose for which they were established. At the present time at least half of those who have graduated from the school during the past nineteen years are still teaching. More than 500 of the teachers now employed in the counties of Los Angeles, Orange, Riverside, San Bernardino and Ventura, over one-third of the entire teaching force of these counties, are graduates of this school. The character of the schools in Southern California, and the standing of Normal graduates in comparison with the average teacher, should answer the statement, recently made, that the Normal schools of this State have for years been turning out half-prepared teachers. So far as I am able to learn, school authorities feel that the graduates of our schools compare very favorably in preparation and efficiency with the Normal graduates from any of the other States.

"Little by little, the standard of qualification for admission to our Normal schools has been raised, the course of study has been lengthened, and the work has been made more professional. A very careful weeding-out process has always gone forward in the Los Angeles school, and I believe the zame is true in the other schools. f Things to

NO POLITICAL PULL.

'In conclusion, I wish to say that after having worked in two of the Normal schools of California for over twelve years. I am impressed with the honesty, integrity and economy with which the Normal School system of the State is conducted. I have been associated with several boards of trustees, and have met in Joint meeting all the boards of the State many times; with a single exception, I have observed but one purpose on the part of the members of these boards, and that is a desire to serve the State honesty in the management of its Normal schools.

"I emphatically deny that the main qualification for the appointment of teachers has been political pull. I have had a longer experience in the engagement of Normal teachers than has any other member of this board, and I can truthfully say that I have never had a board of trustees even suggest to me the appointment of a teacher. Whatever weakness there may have been in the teaching force of the Normal schools under my charge has been, and is, due to a lack of judgment on my part in the selection of capable men and women.

STATE NORMAL NOTES.

The winter term closed yesterday, and there will be no school at the State Normal all of next week, as teachers and students are having their spring vacation.

The trustees of the San Diego State Normal held a business session at the Van Nuys Hotel yesterday morning. The teachers' pay roll and sundry items of expense were passed upon. State Superintendent Kirk reports the San Diego Normal, the youngest in the State, in a very flourishing condition. Principal Black will start East this morning on a prolonged leave of absence, it being his purpose to visit various educational institutions in the East and his old home in England. He has been requested to make a special investigation of the methods pursued in the teachers' college of Columbia University; also to examine and report on other educational institutions he may visit, that may have a bearing on State Normal work in California. State Superintendent Kirk will return North today. He reports the cause of education everywhere in California to be in a very satisfactory condition, and keeping pace with the material prosperity of the State.

and Beloved Preceptress Today.

New Jersey. Her brother, Albert Hoyt, for many years a resident of El Monte in this county, came to California with his mother in 1853. Mrs. Hoyt was a teacher of proved experience and excellence, and under the auspices of the leading residents, opened a private school. In 1856 Miss Hoyt joined her mother and brother in Los Angeles, and shortly after her arrival was assigned to the charge of the public school on Spring street near Second. After teaching in the public schools for ten years, she established a private school, which she maintained with unbroken success until failing health forced her, a few years ago, unwillingly to retire from her life work.

Miss Hoyt was a woman of strong individuality, and left her mark upon the social life of Los Angeles in the earlier days; and scores of her former pupils are living witnesses today to the power of her intellectual and moral influence. She was an earnest and faithful member of St. Athanasius Church, now St. Paul's Pro-Cathedral, from its foundation.

though small, was enthusiastic, and each desciple of Demosthenes was applicated.

The auditorium was tastefully decorated with the college colors, cardinal and sold, the university banners and large bouquets of carnations and popples being used to carry out the effect. All the contestants received beautiful floral gifts.

The programme opened with an organ sole by Prof. W. F. Skeele, dean of the College of Music, after which Rev. B. W. R. Tayler offered the invocation.

"The United States as a World Power" seemed a pretty heavy subject for a pupil of the academic department, and the youngest of the five speakers, but the clear and, forceful way in which E. B. Garcia handled that theme was a surprise even to his friends.

R. A. Grimes showed considerable tact in treating so unpopular a subject as "The Russian." The good qualities of the Slav were ably presented and a glowing prophecy of his future portrayed. But a slight fault of memory detracted from Mr. Grimes's marks in delivery.

"Content of Reform" as delivered by W. R. Guiberson was the winning oration. The thought was clear and concise, the climaxes strong, and the delivery excellent.

"Life and Immortality" were expounded by C. F. Seymour.

St. Francis Xavier Court No. 174, Endorses Lydia E. Pinkham's Vegetable Compound.

Some women are tireless in their home work, others in their work in the church or their favorite society or club; they laugh and sing and are happy.

But think of the poor one who is left at home, utterly unable to make any effort whatever, broken hearted and despondent.

The horror of female complaints is upon her; she is oppressed by that distressing bearing-down feeling, backache, her nerves are all gone, don't care to move and wants only to be left alone.

O, dear sister, don't you know by this time that Lydia E. Pinkham's Vegetable Compound will surely reach the cause of all this trouble and make you well and strong! It certainly will cure you as certainly as the sun shines. Read what Mrs. Gleason says:

MRS. M. GLEASON, Chicago, Ill.

"I want every woman to know that Lydia E. Pinkam's Vegetable Compound has been of untold value to a large number of women of our order. I know positively that it has cured many of the most distressing diseases of the pelvic organs, falling of the womb, ovarian troubles, and painful menstruation. There is no question in the world but that it is superior to any medicine for women. I have used it myself and know whereof I speak. — Yours truly, Mrs. M. Gleason, 554 West Taylor St., Chicago."

"Dear Mrs. Pinkham: — I was sick with female weakness. I took all kinds of medicines, you might say, and was operated on by doctors, but they did me no good. After taking five bottles of Lydia E. Pinkham's Vegetable Compound I found relief and am now enjoying good health. Since taking your medicine I have become the mother of a little boy. I will praise your medicine as long as I live."—Mrs. Sanar E. Reeder, Ohio. (Dec. 27, 1900.)

to the Superior Court.

High School Congress.

The High School Congress held an interesting meeting last evening, the principal feature being a hotly-contested parliamentary drill. Orations were delivered by Mr. Davies and Miss Winters, and an address by Mr. Single-tary.

T. J. Bacon reported to the police yesterday that his room at the Park Place lodging-house, Fifth and Hill streets, had been entered by thieves the night before. They secured two fine revolvers and a large dirk, but did not find his money.

Boys in Blue Entertained.

Stanton Relief Corps held an open meeting last night at Harmonial Hall.

Stanton Relief Corps held an open meeting last night at Harmonial Hall, on Fifth street, between Main and Spring, and had as their guests the members of Stanton Post, G.A.R., A pleasing programme was rendered and refreshments were served.

Visiting Supervisors. Supervisors McKelvey and McCor-mack of San Mateo county called on the Supervisors of this county yester-day. They are about to build a new courthouse for the San Mateo people and came south looking for models, Orange county also was visited by them. They want to spend about \$150,-000.

Washington not Coming.

Booker T. Washington has written a letter to Rev. A. D. Chandler of this city, in which he says there is little or no prospect of his visiting this Coast, and that he is not responsible for any announcements that may have been made. He also says that he does not contemplate sending any of his students to this Coast, any statements to that effect being erroneous.

Children's Rospital Officers.

At the annual meeting of the Childrens' Hospital Society resterday the following officers were elected: President, Mrs. E. R. Brainerd' first vice-president, Miss M. F. Wills; second vice-president, Mrs. Newmark; secretary, Miss A. A. Smead; corresponding secretary, Miss M. O. Hooker; financial secretary, Mrs. J. B. Banning; directors, Mrs. J. R. Newberry and Mrs. F. W. Wood.

Car Smashed Buggy. A south-bound car on the University line of the Los Angeles Railway Company jumped the track at the curve below Twenty-fourth street on Hoover street at 3 o'clock yesterday afternoon and ran to the curb. It collided with a buggy belonging to Frank Phillips, a salesman for the Kahn-Beck Cempany, and completely demolished the vehicle. Phillips was entering the buggy when the collision occurred, but escaped injury.

Isabel, daughter of Mr. and Mrs. Sostenes Sepulveda, died yesterday of pneumonia. She was 10 years old, and by her death the parents are left childless, another daughter having died at the same age of the same disease. Little Isabel was a niece of Deputy Sheriff B. E. Rico and Police Officer Tom Rico. The funeral will take place from the residence of the former, No. 1230 East Ninth street, at 2 o'clock Sunday afternoon.

Car on the Jump.

University car. No. 241, Motorman Hockduffer and Conductor Horton, left the track on the curve at Hoover street near Twenty-fourth yesterday afternoon and smashed a buggy owned by the Zahn-Bick Company into smithereens. The horse escaped with slight bruises. The sidewalk prevented the car from breaking in the front of Grannis & Wilson's store. It stopped not over four feet from one of the large plate-glass windows. Car on the Jump.

Charged With Burglary.

The formal charge of burglary was made against Fred Williams yesterday and he will be prosecuted for having broken into the harness and saddlery store of S. C. Foy on North Los Angeles street Wednesday evening. The arresting officers not only have a witness who saw him enter the place, but they have found a man to whom he agreed to bring two sets of new single harness. Williams was found in the place by Special Officer Ford, who fired two shots at him, but was unable to capture him. An hour later he was arrested by two detectives. Charged With Burglary.

Many Thefts of Wheels.

Many Thefts of Wheels.

Since Tuesday the police have received reports of the theft of eighteen bicycles, and they have been able to recover only two of the stolen wheels. The detectives believe that there is a gang engaged in systematic thefts of bicycles, which they dismantle and ship to other cities, where they are sold. In the hallway at the Police Station are nearly fifty bicycles which have been picked up by patrolmen and citizens, and which have not been claimed by their owners. Many persons who have lost their mounts might find them there. The wheels are kept for the inspection of the public. Olive-street School Walls.

Olive-street School Walls.

The six bids received by the Board of Education for the construction of the concrete retaining walls around the Olive-street school property were opened yesterday. The lowest bid was made by the California Ornamental Brick Company, offering to do the work for \$7200. The other offers were: Robert Beyrle, \$7492; C. Leonard & Co., \$19.500; J. W. Morrison, \$9400; F. Odemar & Co., \$10,120; F. Nieman & Co., \$10,500. The walls will be on the north and west lines of the property, of heavy roncrete, and will be twenty-six feet in height.

Healing of Woman at a "Holiness" Meeting.

Came from Pasadena on Her Bed of Pain.

Remarkable Excitement at the Camp-meeting in East Los Angeles Last Night.

and Elder John E. Langon of Pomona, spoke last night.

"Thank God, we've got authority to shout," called out the latter speaker.
"We've got to shout Hallelujah! We're on the hallelujah line."

Speaking of Christsian experience, the elder said: "I guess nature done a good job on Rachael, for Jacob wanted her as soon as he saw her—but when he woke up he found he'd got the weak-eyed one. That's the way with many Christians in getting experience.

"I'll tell you, beloved, you want to get where a woman won't jar you. Peter let a little serving maid jar him into a denial of the Christ—but no woman could jar him after he was sanctified. Getting the baptism of the Holy Ghost is the cardinal principle of the Holiness people. There's many a D.D. today who wouldn't recognize the 'Holiness cranks,' but wait till 'that great day.'

HEALING THE SICK.

Each day there are prayers for the healing of the sick. Several were in attendance yesterday who claim to have been miraculously healed. At the tents, and in some cases, in nearby rooms, are sufferers who have come hither seeking relief.

One poor woman who is so weak from tuberculosis as to be unable to reach the tent, lies in a room close by, waiting to be healed. One sick woman was brought down from Pasadena on a mattress and returned yesterday afternoon apparently well.

An interesting service occurred yesterday afternoon. It was the consecration of elders for the missionary field. Elder and Mrs. S. D. White and Elder L. M. White so to the Texas field; Willis C. Brand to South America; Elder and Mrs. Kyle to Oregon; Elder Frank Thompson to Africa, and Elder Frank In to Texas at present, but eventually to Africa.

The example struck from the shoul-

Griffin avenue and Altura street, last evening, as passengers alighted from the Downey-avenue car. The singers were directed and warmed up by the vigorous waving of the arms and claping of the hands of a leader.

As there came a lull in the singing and the words of testimony fell from the lips of various speakers, shouts of "Glory, glory!" "Yes, that's so; bless God!" "Hailelujah for that, brother," or sister, as the case might be; "Amen, brother, you're on the right track," etc., came up from all parts of the well-filled tent.

It was an evening service of the semi-annual camp-meeting of the Hollness Churches of Southern California, which is in progress in East Los Angeles. Here are gathered a people who believe in making themselves literally "A people peculiar unto the Lord." Mud Hens 8, Looloos 4. Hartwell was the cause of it. The San Francisco papers on severa Hartwell was the cause of it.

The San Francisco papers on several occasions touted him as a comer this season, on the assumption that he would certainly improve over last rear; but he did not show it yesterday, for he lost the Looloos a "ame they should have won with their hard batting. The Mud Hens had a regular El Campo plenie with Byron for four innings, and during that time made six singles and a double and got three bases on balls and a hit-by-pitcher. All this netted seven large runs, which took the hearts out of the locals and lost them the game. There was nothing to it but Hartwell, and he was the easiest thing that ever happened. The Mud Hens thought he was a part of the creek route surrounded by tules, and lit onto him in flocks, and the only way Manager Morley could scare them away was to put in the new pitcher, Slagel, in the fifth inning.

It is more than possible that Slagle is a find, for his work yesterday was

THIRTERN-INNING GAME

SAN FRANCISCO, April 11.—Sacramento won a thirteen-inning game today. The game was full of brilliant plays. Whalen, Unglaub, Birmingham, Holly, Sheehan, Doyle and McHale each contributed a brilliant play. The locals did not score until the eighth Unglaub dropped Delmas's fly to short left because Wagner interfered with him. Shugart scored. Whalen put the ball over Birmingham, bringing in Delmas and Leahy and tieing the score. A pretty double play kept San Francisco from winning in the eleventh cisco from winning in the eleventh

in all probability if Hartwell had not set the pace himself.

The game was very slow, but a good one just the same. There were twenty hits and but few errors, and this is what tickles the fans. It was remarkable for the hard batting, there being a home run, a triple, nine doubles and as many singles, a bombardment not seen every day.

The slaughter began in the first inning for the visitors. Walters doubled to the score board, and Mohler followed with a pass to first. Both advanced a base on Streib's hit to Atherton, who ran over the base with the ball, but did not touch the bag. Here was three on bases, with no outs. Wild Bill Devereaux let out a yell that scared Hartwell so much that he walked McCreedie to first on balls, forcing in Walters with a taily. Bill followed by flying out to Hannivan, and Mohler scored after the catch. Dunleavy hit a hot one at Hartwell, Streib scoring and McCreedie going to second. This was all, for Francks and Gorton were out on easy infield hits.

In the second they added two more after two outs. Hartwell hit Mohler in the shirt front and he scored on Toman's wild throw to Atherton of McCreedie's hit. In the third another came on hits by Dunleavy, Gorton and Christall, a stolen base and an out. The seventh run was made in the fourth on Mohler's pass and steal and Streib's hit to first base. Slagle then went in to pitch and scared the Mud Hens away until the ninth inning, when McCreedie scored on his own triple and Wild Bill's astonishing double.

The Looloos opened up in the second. Raymer doubled to center, went to

triple and Wild Bill's astonishing double.

The Looloos opened up in the second. Raymer doubled to center, went to third on a passed ball and scored on Waddell's hit to Devereaux, who did not try to field it in the hope that it would bound foul. The second arrived in the third on Hannivan's single and Atherton's two-bagger, and the third came in the fourth inning on Rube's long high drive over the center-field fence, the locals not being lucky enough to have a man on a base shead of him. Nothing more happened until the eighth, which Atherton opened with his second two-bagger, Raymer scoring him with the same kind of a hit past third base, which Francks hit with his knee, knocking it far enough away for Atherton to score. There was some excitement and hope in the Looloos' ninth, when Decker, batting in place of Slagle, made a two-bagger, but no runs resulted.

FAMILY OF E. T. M Chemist Posdick So Reported to the Health Office Yesterday—District At-

terney Asked to Draw Up a Complaint Against the Packers.

In the matter of the green pickled olives, dyed black in imitation of ripe ones, Chemist E. H. Fosdick yesterday reported to the Health Officer that his analysis showed that they were colored with aniline dyes.

It will be recalled that some of these olives, which were put up by James Hill & Sons of this city, were purchased at the grocery store of Adams & Hellinghausen by E. T. Morris of No. 222 South Hill street, and himself, wife and child were made sick by eating them. Fruit inspector R. E. Drummond secured some of the same lot and submitted them to Chemist Fosdick, with the result stated.

mitted them to Chemist Fosdick, with
the result stated.

Yesterday, upon receiving the report
of the chemist, Mr. Drummond at once
placed the matter in the hands of the
District Attorney, with a request to
draw up a complaint.

Although the Hill establishment protested that the olives were colored with
a perfectly harmless substance, those
persons who ate them did not believe
it, and the report of the chemist would
indicate that their judgment was good.

It was such an utterly uncalled-for
thing to attempt to counterfeit ripe
olives in a country where they are
grown by millions, that every olive
grower and every olive consumer is
up in arms against the deception. It
will do incalculable injury to the industry, just at a time when it is at its
zenith, and there is no disposition on
the part of any one to palliate the offense.

The retail grocers assert that they
were blameless in the transaction; but
investigation by Times reporters does
not bear out their assertions. However,
that is a matter to be settled in the
courts.

Quisk Work Being Done in Rebuilding the Burned Pacific Coast Boras Factory at Constable Hook.

(BY DIRECT WIRE TO THE TIMES.) NEW YORK, April 11.—(Excusive Dispatch.) Quick work is being done in rebuilding the Facific Coast Borax Refinery at Constable Hook, Bayonne, which was gutted by fire Monday night. The ruins were still smouldering when an army of workmen was put at work clearing away the debris, and the work of rebuilding the structure will now go forward rapidly.

The day after the fire it was found that the thick reinforced concrete walls of the six-story building were not cracked, or in the least damaged by fire, and they will be retained.

REPRESENTATIVE

"YOU'RE ALL RIGHT, SISTER WHITING, SAYS THE DEVIL." clearly defines what is and is not in good form. Most of the women dress in plain black, and the favorite head-dress is the low walking hat in black, with occasionally a few folds of rib-bon or silk about it.

Mrs. Whiting of Redlands, one of their evangelists, declared that neither gold nor pearls nor costly array could be worn without sin.

Lord wills it.

"But don't you let the devil fool you and make you think you are all right because you dress with good sense. Why, the devil might say. 'You've worn that hat for the past six years. Sister Whiting; you are all right!' Don't forget it isn't the dress that saves you.

"It's all in the providence of God. I've seen big revivals with the revivalist out at the elbows and preachers with no shoes on their feet; and. I tell you, I take pleasure in necessities, as did the old Apostle Paul."

During the singing of hymns seekers

During the singing of hymns seekers of pardon and purification were urged to go forward to the improvised altar, and an exhorter cried out, "You won't risk your house six hours without insurance—but you are hanging your soul over hell by a brittle thread." The penitential bench was soon filled, the elders and active workers going down through the audience, and urging people to go forward. Long into the night the prayers of the penitents and the faithful laborers ascended, and one after another they arose and went away comforted.

away comforted.

This was but one typical meeting of the several services held daily. There is noise, lots of it; and many grotesque scenes; the music isn't exactly classical, but it's powerful, and underneath it all one can readily see that the Holiness people are thoroughly in earnest. Indeed, with many of the elders and evangelists it is a strenuous life of denials and self-sacrifice.

BUSINESS MEETING.

The business meeting of the board of elders for Southern California was held Tuesday. Three new large tents were ordered to be placed in the evangelistic field work. The East Ninthwere ordered to be placed in the evangelistic field work. The East Ninthstreet church property was sold to the
promoters of the Long Beach electric

a lot farther west on this street, and
build a new church. Plans were
adopted for a new church building at
Riverside. Steps were taken to quiet
the title to the association's camp

Burrounding the large tent is a city

been taken by the Holiness hosts.

The meetings will continue until

first class. He had but five minutes of warming up and went into the game to pitch against a hard combination of ball players, and with the score 7 to 3 against him. He is a slow man like McFartlin and does not get rattled. When he begins to pitch he wraps himself up into some sort of a knot and unwinds like a snake, handing out a ball that is very deceiving. The batsmen are generally so astonished at watching him uncur himself that they cannot see the ball. Three of them did, however, for two doubles and a triple, and in addition he gave two passes away. His work was excellent for a first time out.

Rube Waddell, the idol of the Wabash, came to the front again yesterday with a great home-run drive over the center-field fence in the fourth inning. This netted him a suit of clothes, offered by Hamburger & Sons; a pair of shoes, given by Widney & Shrader: a box of cigars by Eddie Hookstratton, and 310 worth of eatables offered by Al Levy. In addition to this he received the glad acclaim from the big audience and hundreds of sweet smiles from the straight-front corset brigade, and altogether quit a big winner.

Mr. Chrystall, who pitched for the Mud Hens, was in pretty fair shape, but really did not pitch good enough ball to win. The Looloos hit him nine hard times. Waddell getting a home run, Raymer three doubles, Atherton two and Decker one. Hartwell and Waddell making a single each. He struck out four and gave four passes to first, and would have lost his game.

THE MOTIVE POWER.

the Right of Way Cause a Vigorous Application for Steam Franchise.

Fearing that the Pacific Electric Railway Company intends to use steam power on its Long Beach road, those owning property along the private right of way from Eighth and Central avenue south to the city limits are up in arms. They appeared before the Board of Public Works yesterday afternoon in a somewhat excited frame of mind.

on his orchard, at which he was deeply grieved.

"I could not stan dere all dere time wid a club to hit on dere hed dere mules," he graphically declared. "Ven at sell some more land to dere railroad I do dere same way—I guess not."

It appears from the statements of the property owners who appeared before the board that the Pacific Electric Hallway Company has graded a road-thirty-five feet wide for the purfaceommodating four tracks, in places, notably near Thirty-five freet, the roadway has been from two to four feet. In order that the tracks above the level of murcunding country it was neces-

VERNON-AVENUE PROTEST.

VERNON-AVENUE PROTEST.

Property owners on Vernon avenue between Main and Alameda streets appeared before the Board of Public Works yesterday afternoon to protest against the award of the contract to M. S. Cummings, the lowest bidder.

The petition asking for the improvement of the street was filed with the Council over a year ago, but owing to some engineering defects in the street lines, bids were not called for until a short time ago. At the present time there is great activity in construction, and the property owners are convinced that the bids presented are excessive.

are convinced that the blds presented are excessive.

Contractor Cummings asked the board for a postponement yesterday in order that he may try to secure the consent of a majority of the frontage. His bid was \$43,511.28 on a total frontage of 20,259.36 feet, or nearly \$2,12% for each front foot on each side of the street. It was shown yesterday that the figure is greater than the assessed value of the property on some portions of the street.

One property owner, representing

to get a franchise over the street now," declared Mr. Hanna, "and we believe that if that franchise is not granted, another one will be. If we should improve the street now it would have to be torn up to lay the street-railway tracks. Water and gas mains are still to some, and it seems to us the part of wisdom to have these laid before we improve the street. If the street-railway company lays its tracks, then the company will have to bear a portion of the expense."

S. D. Pallette spoke against making an award of the contract at the present time. He said that the activity in construction due to the advent of the Salt Lake road and the building of the interurban lines has placed teams and laborers at a premium. He thought it unwise to proceed with the improvement under the proposal of Contractor Cummings.

In support of his offer, the contract raked the board for time, to convert the property owners. He intimated that a general discount from the offer might be forthcoming.

"I'm not going to boodle any of you," he declared, sententiously. "Those is not my principles. Everyone gets just the same that the other one gets. Them's my methods."

Finally the board agreed to let the matter go over for a month, with the understanding that the contract will not be let without the consent of a majority of the frontage.

not be let without the consent of a majority of the frontage.

STREET IMPROVEMENT.

The following contract awards were made by the board yesterday: Dewey avenue, between Eleventh and San Marino streets, let to P. J. Richmon at \$4622.95; Third street, between Boyle avenue and State street, let to George Rheinchild at \$227.25; Bond street, between Sixteenth streets and alley between Fourteenth and Sixteenth streets, let to M. S. Cummings at \$485.70; Fourth street, between Boyle avenue and Chicago street, let to George Rheinchild at \$5871.05; Lamar street, between Main street and Alhambra avenue, let to R. J. Richmond at \$3535.76; Normandle avenue, between Washington and Twenty-second streets, let to Charles Stansbury at \$5223.60; Catalina street, between Pico and Sepulveda streets, let to S. McCray at \$1949.30; Thirtieth street, from Maple avenue to a point 190 feet west of the west line of San Pedro street, let to Jon Ginella at \$1273.79.

Water Bills for Market.

Considerable discussion was caused yesterday by the presentation to the Finance Committee of two bills for water used at the so-called public market, aggregating \$122.65. From June 9 to July 27, 1901, the bills show that 50,900 cubic feet of water was used at the public market, entailing an expense of \$78.35. while from July 27, 1901, to March 25, 1902, 18,850 cubic feet of water was used, costing \$44.30. It is considered somewhat remarkable that a market with no tenants but a high-salaried market inspector should consume such an amount of water. It is even more noteworthy that the bills for water should have been held back for almost a year instead of being presented for payment every month. The members of the committee intimated yesterday that the charges will not be paid unless there is some evidence as to what was done with \$122 worth of water during a time when the revenue from the market22 mounted to \$22. Taxpayers have not forsotten that the market folly has already cost the city over \$3000 and is still maintained as an expensive luxury.

Times when the franchise application was presented, nothing is said about the use of electricity.

It developed yesterday that the company wants a steam franchise, not because it is desired to run steam engines over the road, but because the Council can grant such a franchise directly without putting if up for competitive bidding. The Pacific Electric Railway Company is rushing its Long Beach line to completion, and it is desired to secure the franchise as soon as possible. If application, was made for an electrical franchise it would have to be offered for sale under the Broughton law.

Miss H. Hayden, who, with her two sisters, owns considerable property along the right of way at Thirty-eighth street, said that she wished to protest against the granting of a franchise that would allow the company to use steam on the road. Several other ladies echoed her sentiments. They asked that a restrictive clause be put in the franchise which would prevent the gue of steam on the road.

City Attorney Goudge stated that as the application was made under the part of the Councilmen in a spirit of banter declared that they were surprised at the councilmen in a spirit of banter declared that they were surprised at the councilmen in a spirit of banter declared that they were surprised at the councilmen in a spirit of banter declared that they were surprised at the councilmen in a spirit of banter declared that they were surprised at the councilmen in a spirit of banter declared that they were surprised at the councilmen in a spirit of banter declared that they were surprised at the councilmen in a spirit of banter declared that they were surprised at the councilmen in a spirit of banter declared that they were surprised at the councilmen in a spirit of banter declared that they were surprised at the councilmen in a spirit of banter declared that they were surprised at the councilmen in a spirit of banter declared that they were surprised at the time that the councilmen in a spirit of banter declared that they were surprised at

Books in Great Demand.

A fine showing was made by the public library last month, as shown by the report of the librarian, presented at a meeting of the board of directors yesterday afternoon. Home circulation amounted to 52,845 volumes, and the reading-room circulation to 17,756 volumes, a total of 70,601. The number of books in the library is 71,659. The present memberahlp is 17,659. The present memberahlp is 17,659. A committee was appointed to renew some insurance policies that have lapsed. There is now 353,000 insurance carried on the books and fixtures of the library, an increase of \$12,000 since the present board took office. Some criticism has been caused by the action of the board in increasing the pay of the janitor from \$50 to \$65 a month. President J. Ross Clark explains that the janitor now furnishes a horse and buggy to carry books and parcels, a work formerly done by hired expressmen, and that he receives the extra compensation for this service.

Yesterday the Finance Committee passed a demand in favor of County Clerk Bell to satisfy a judgment in favor of A. J. Reithmueller, in the case of Garland vs. the City of Los Angeles. A dispute arose about the payment of rent at the old. Hill-street engine-house, and the city had to begin a suit to determine to whom the money belonged. The amount involved was \$525. A demand on the police pension fund for \$1000 in favor of Ray E. Cottle, guardian for the minor helrs of the late Bailiff N. B. Appel of the Police Court, was also approved.

Oil Inspector Hamilton believes that the oil which has recently washed out on Washington street, comes from sediment that was deposited in the bottom of the Arroyo de los Reyes at a former overflow. He has failed to find any sump hole from which the oil runs into the old drain. President Powers of the Council has always argued in favor of turning this oil into the sewers; but as such a course would prevent the sale of the sewage, his plan has heretofore met with defeat.

Puente Crude Oil Company's Affairs Complained of by John T. Kiernan. Who Says Extravagance and a Pool Have Demoralised Value of His Stock.

Charges of gross mismanagement of the affairs of the Puente crude Oll Company are made in a suit filed yes-terday by John T. Kiernan, a stock-holder, against the corporation, its vice-president P. J. Beveridge, and its/ secretary. J. B. Bushnell. Plaintiff asks for the immediate appointment of a receiver, who shall proceed to develop the company's 800 acres in the Fullerthe company's 800 acres in the Fuller ton field and put the company on a

the company's 300 acres in the Fullerton field and put the company on a
sound financial basis.

Kiernan's tale of woe is wrapped up
in ten typewritten pages of complaint.

The Puente Crude Oil Company was
incorporated in 1899, under the laws
of Arizona with a capital stock of
\$3,000,000. The following year it purchased its Fullerton property for \$35,000 and disposed of \$85,000 worth of
stock, although, it is alleged, no development work was done except to
put down a well 800 feet, at which
point oper ans had to be suspended
for lack of unds and a \$5000 debt.

This debt, says the complaint, was
incurred by the directors in May, 1900,
when they purchased from Bushnell
additional mining ground in Kings
county and paid him not only \$5000
in cash, but also 100,000 shares of the
company's treasury stock.

Now it is alleged. Bushnell's land to

march 35, 1962, 18,850 cuble feet of water was used, costing 144,03, it is considered somewhat remarkable that a market with no tenants but a high-salarid market inspector should company's treasury stock.

The company promised him that the readshed would not be elevated more than ten inches, he declared, and that we feet of the roadway next his property was next his protect and that we feet of the roadway next his protect and that we feet of the roadway next his protect and appeared being high-may pe eight, maype ten feet deep, each side deer cand and put der tracks up high-four feet or some more maype, side deer cand and put der tracks up high-four feet or some more maype, which was done with size worth of water was done with size worth of water was done with size worth of water with a club to hit on dere hed dere time with a club to hit on dere hed dere hed dere hed dere hed dere hed

sandings and knocked the credit and standing of the company into a cocked hat.

"But that is not all," says Kiernan in his complaint: "the defendants have conducted the affairs in an arbitrary manner, and have persistently refused to give information to stockholders; and have used the income for paying extravagant salaries and office expenses, with little effort to raise money for development purposes. Why, experts have repeatedly advised us that if we would sink our well 200 feet deeper we would strike oil in paying quantities, but we have done nothing. In January, 1901. C. F. Mansur of Santa Ana was elected president of the company, but he found defendants so arbitrary and persistent in the ways that he resigned and they filled the vacancy with a party friendly to themselves."

It is further alleged that the defendants have determined to lease the Fullerton property for unreasonably small royalty, and Judge Trask is asked to enjoin them in further disposition of the company's holdings; also to cancel all 1-cent stocks, besides that is sued to Bushnell for his alleged worthless land and to compel him to return the purchase price of \$5000. In addition to a receiver, an accounting is also prayed for.

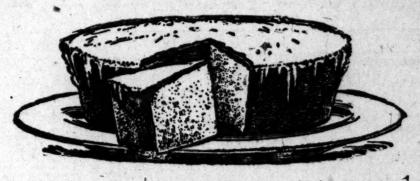

In behalf of the defendants Secretary Bushnell said last evening that these charges are old straw threshed over; that they were brought forward a year ago by the same attorneys and settled by stipulation, and that the only reason they are now revived is because MCAvoy wants to be chosen secretary of the corporation.

DAMAGE SUITS.

MAN AND WOMAN HURT.

Damages in the sum of \$5000 are asked by Joseph Cross in a sult filed in the Superior Court yesterday against the Lusk Cab Company. Plaintiff was physically injured last September in an accident on South Main street. While riding on a bicycle, cab No. 30, driven by Joseph Guthrie, ran into him, through the alleged negligence of the driver, whereupon he was sent sprawing to the ground in a heap of injuries. The right side of his body was badly bruised and a rib was broken. He says it was sixty days before he was able to attend to his ordinary business after the accident, as a result of which he was out about \$300. His attorney is H. G. Pound, Esq.

Maggie Stoll began a suit for \$10,000 damages against the Los Angeles Railway Company. She was aboard the Maple-avenue car that Jumped the track near Washington street on March 19 and ran over against a curb. Plaintiff was hurled from her seat to the floor and says she sustained such injuries that the expense of relieving them was \$350. She believes that never again will she be able to perform her household MAN AND WOMAN HURT.

POOR LITTLE COON.

Even Children Draw the Color Line, Now That Club Women are Making Such a Touse About It.

One poor little darkey who wants ome one to play with her is breaking some one to play with her is breaking her heart because the color line has been drawn in one of the small towns south of Los Angeles. She is on the black side of the line.

She belongs to the only colored family in the town and has no brothers or sisters to play with. She is pitifully lonely.

Yesterday morning she was hanging on the front gate swinging desolately to and fro, when a little starched white girl came along. She had a little parasol and she felt very haughty.

The little darkey got down off the fence and came shyly out on the sidewalk to meet her.

The little white child flounced by without as much as making a face.

The pickaninny followed her wistfully for a little way down the street until the white child, who kept casting sidelong glances behind her, became frightened and ran as fast as her legs could paddle. Yesterday morning she was hanging

the white cand, the came frightened and ran as fast as her legs could
paddle.

The little darkey came back very
sadly to her lonely gate and was evidently figuring it all out.

Presently she stopped swinging the
gate and went into the house.

When she came out she carried
proudly aloft a most amasingly-pink
and green parasol. She thought the
other little girls would, play with her
now that she had a parasol, too.

But the white child took the other
side of the street when she came back,
and went as fast as she could. It was
a crushing disappointment, Evidehtly a
parasol was not the open sesame.

She was very foriorn and downcast
for a long time. Then an inspiration
came to her.

She fairly flew into the house and
came out of her face covered with
flour, except in two or three spots,
where the black showed through.

two little white girls came along. She sailed triumphantly out to meet them. They stared at her for a minute in blank amasement, then they both giggled and ran.

The little black girl sat down on the curb in all her finery and cried and cried, and cried, until the tears streaked her floured checks.

FIREMEN KEPT BUSY.

Several Alarms of Fire, but None of the Blazes Cause Any Serious Loss-Big Pond of Oil Burned Out.

Between 11 o'clock yesterday morning and 5 o'clock in the afternoon there were four alarms of fire, but none of them were for serious blazes. The first was from First and Hewitt streets at the church of the pastor, Rev. J. N. Boyd; and the more of the mere for serious blazes. The first was from First and Hewitt streets at the church of the church of the pastor, Rev. W. S. Young, D.D.; dedicatory payer, Rev. W. S. Young, Rev. Andrew Junkin.

was from First and Hewitt streets at 11:06 a.m. The gasoline tank of a locomobile, the property of W. J. Hyman, became ignited from the burner, and in an instant the entire machine was in flames. The fire was extinguished before the arrival of the fire department, but the locomobile was practically ruined.

A. 415 o'clock yesterday afternoon the gasoline stove in Sam Fletcher's lunch stand at No. 122 North Broadway exploded, setting fire to the place. The loss did not exceed \$25.

A large pond of crude oil in the vicinity of the Sisters' Hospital became ignited at 4:54 pm. The fire caused such a dense smoke that from a distance it looked like a serious conflagration. The oil burned itself out with practically no loss. The gurrounding property was not in danger.

STATE OF TRADE.

DUN'S WEEKLY REVIEW.

BY THE NEW ASSOCIATEP PRESS-P.M.1

NEW YORK, April II.-R. G. Dun & Co.'s

Weekly Review of Trade tomorrow will say
that good news predominated in the business
world, notwithstanding two somewhat serious
drawbacks. Weather conditions have been unsatisfactory at many points, retarding retail
distribution and delaying outdoor work, while
excessive rain, has put many southern planters
behind with work in the cotton fields. Still
more of a handleah is the strife between wagecerners and employers. Manufacturing is exceptionally active in lines not disturbed by
strikes, and there is a vigorous movement of
goods through regular channels. Wheat moved
within narrow limits. Western receipts for DUN'S WEEKLY REVIEW.

OF GOODS STOLEN.

Capt. J. H. Hall, left yesterday as delegates to the annual sessions of the Grand Chapter, Royal Arch Masons, in SAN JACINTO, April 11.—Last night burglars made a haul amounting to 1500. The jewelry store of F. K. Selfkes and the grocery house of C. L. Emerdozen gold-plated pins.

Goods were also taken from the gro-cery store, but the loss there is inconsequential.

There appears to be absolutely no clew by which the thieves can be traced, unless they should be apprehended while disposing of the stolen goods. Of this there seems little likelihood, for it is believed that there is a "fence" in Los Angeles where crooks can sell their pickings with little danger.

State Supreme Court Decides Contest That Has Been Waged Nearly Twenty Years for Possession of Five Hundred

RIVERSIDE, April 11.-Word came by wire from San Francisco this after-noon that the Supreme Court has awarded all the land in section 30, just east of the city limits of Riverside, to Matthew Gage. So far as the State Matthew Gage. So far as the State courts are concerned, this marks the end of a great legal contest that has been waged for nearly a score of years for the possession of about 500 acres, embracing some of the finest orange land in the valley. The title to the land was fought at every stage before the issuance of a patent by the United States government to Gage, who then brought actions for ejectment against the three men who were occupying the brought actions for ejectment against the three men who were occupying the land. Three years ago the cases came up for trial before Judge Noyes, who rendered judgment for Gage. The claimants were ejected and dispossessed. The cases were appealed, with the result that Judge Noyes has been affirmed in all three, and Gage comes into full possession of the land.

SAN DIEGO COUNTY. CALF WANTS MORE ROPE.

SAN DIEGO, April 11.-There has cropped out again the agitation, which appears to be intermittent in San Diego, that this county be detached from California and annexed to Ari-zona. None of the arguments are new, but the proposition seems to assume more definite form. There is talk of getting up a petition to Congress or of submitting the question to a vote of the people.

The claim is that San Diego, being

The claim is that San Diego, being very small peanuts in California, would be big potatoes in Arizona. With San Diego, Arizona could become a State at once, and this city would be the metropolis and seaport of that State; so the little end would be the big end of the State. It is claimed, further, that the community interests of San Diego are not the same as those of the northern part of the State, by which the laws are dictated, and that there are many more common interests with Arizona. Some persons think the railroads would tumble over themselves to get into Arizona's seaport. This appears to many to be the last ray of hope for San Diego, and they cling to the straw with the tenacity of desperation.

INDIAN INTERVENTION.

Philip Welsh and others, representing the Indians' Rights Association of Philadelphia, Pa., 40day, entered a complaint in intervention in the case of J. Downey Harvey vs. the American Surety Company, pending in the Superior Court. Judge Torrance this morning made the necessary order allowing them to intervene. The case dates back to 1897, when J. Downey Harvey et al. secured their first judgment against the Warner's Ranch Indians, thereby securing an order to oust them from their lands. The owners of the ranch have been suing the American Surety Company, who represent the Indians, for rent for their occupation of the land, while the case was pending in the Supreme Court, since 1897. Upon the affirmation of the Supreme Court, the owners began proceedings to collect the back rent, now amounting to about \$20,000, the in-INDIAN INTERVENTION.

Reports from the lower coast are to the effect that the Pacific Coast Fishing and Exploration Company is about to expend \$10,000 in improving plants and building new ones. The company has the Mexican concession to carry on fishing operations from the international boundary fine south around Cape San Lucas up the eastern coast of Lower California. It is operating at Ensenada and San Quintin, and is planning to establish plants at La Paz and other points. San Diego will be the port of entry and principal place of business.

Mrs. A. J. You, wife of the immigration inspector, died last night. She was a native of Pennsylvania, and had resided for many years at Fort Wayne, Ind. Maj. CORONADO BEACH.

IMPORTANT RAILROAD MEETING. HOTEL DEL CORONADO, April 1L -The Western General Passenger Agents' Association will meet here Tuesday. The organization embraces all railroads west of Chicago and about Tuesday. The organization embraces all railroads west of Chicago and about thirty-five general agents are expected, with any number of assistants. Some will come from the roads east of Chicago. It is a regular annual meeting. It is the supposition that the interchangeable mileage on the western roads will be considered, as well as rates for the big gatherings on the Coast and in the Middle West this year and next. The meeting is of importance, as the roads stand behind what the agents decide upon. The Chamber of Commerce will entertain the visitors. William Moncrieffe of Sheridan, Wyo., entertained at dinner last evening several of the officers of the British gunboat Shearwater, including Commander C. H. Umfreville, Lieut. F. F. The price is \$5,000, and the papers were signed yesterday. An interesting feature of the transaction is the conveyance of a right of way by Mr. Murphy to the Salt Lake Railroad through the undeveloped land of the East Whittier Land and Water Company for the branch line which it is proposed to build through this city, La Habra and Santa Ana to Long Beach.

******************* WEIRD RIDE OF A BABY.

Shot Four Hundred Feet by Water Through Dark Pipe.

MONROVIA, April 11.-The year-old son of Mrs. James Mc-Alonan of lower Duarte had the strangest ride ever made by a baby. This afternoon the little one fell into a large water stand on the cement irrigating pipe in front of the house, and was driven through a 14-inch underground pipe 400 feet by a 50-

inch stream. A chance passer at exactly the right moment saw the child floating in the open ditch along the road after its singular slide, apparently dead. Leon Haydock rolled it vigorously across his knees and resuscitation followed. When the doctor arrived the youngster was as well as ever.

Did the Trout Pisherman's Hair Raise and Set His Hat Adrift?-Fish Like a Jack-rabbit in Avalon Aquarium-

AVALON, April 11.—A whale had a narrow escape from capture, and Charles A. Bryan had an experience which for a few minutes was exciting. Bryan was trolling for yellowtail with the Lolland, Chriss Ringsen skipper, They were three miles off shore when a monstrous whale came up near them, and spying their boat—it must have been a female whale—evidently its curiosity was aroused, and ft proceeded to investigate them, following in their wake until it was within fifty feet, when it suddenly turned and went across their track, their lines dragging right over the monster's back, as they had 150 feet of line out the whale had crossed and disappeared before the had 150 feet of line out the whale had crossed and disappeared before the hooks reached it, and thus its life was saved. The angier and skipper unite in saying the leviathan-was from seventy to eighty feet in length, and it looked for a time as if they were being pursued with malicious intent, and that they and their little twenty-foot craft were doomed. The only damage they suffered was the loss of the angler's hat, which went overboard, althey suffered was the loss of the ang-ler's hat, which went overboard, al-though there was no wind blowing at the time. Bryan belongs to a small club at his/home in Rochester, N. Y., which owns a trout stream in the Adiron-dacks, and a salmon stream tributary to the St. Lawrence River, where he in-dulges his penchant for angling, and where he finds more delight in pursuing the fish than in being pursued by eighty-foot monsters of the Pacific Oceah.

TAPAN'S AGENT VIEWS WORLD'S OIL FIELDS

LOCAL TERRITORY NOW UNDER HIS EAGLE EYE.

Interesting Tour of Many Fields-Important Land Rulings Announced by United States Commissioner at Bakersfield-Reed Crude's Filings.

Dr. S. Otshua, a member of the Geological Survey of Japan, and prominently identified with the petroleum industry of that country, is now in the city. As a special envoy of the Japanese government, he has been engaged for several months in the inspection of the world's important oil fields, studying the various methods employed in the development and acquiring such information as will be valuable in opening up of the promising oil fields in the land of the Mikado.

The great fields of Russia, the producing sections of Roumania, Germany and Galicia, and the Beaumont and eastern districts of the United States have been visited, and it is the resources of the fields of this country that have made the most impression on the traveler. Not only in apparent resources does the United States lead, but also in the methods used in development. The machinery and other appliances are far ahead of those in any other field visited. In Russia methods of development are very primitive, and all work is done with more economy than in this country. Oil is used quite extensively there, but little expense is gone to in the erection of storage tanks, or other conveniences.

The one great project is a pipe-line scheme backed by the Russian government, which is now planning a pipe line from Baku on the Caspian Sea, to the Black Sea port of Batoum. The distance is 558 miles, and the line will be for the transportation of refined oil.

distance is 558 miles, and the line will be for the transportation of refined oil.

Germany is backward in taking up petroleum, the consumption having increased but little since 1895. There the product is very high, and for that reason, gas, acetyle, electricity, wood, etc., are used instead.

Dr. Otshua spent considerable time both in France and England, inspecting the manufacturing of briquettes, an industry that, he says, shows much possibilities.

"The growing scarcity of coal has caused that fuel to advance to such a point that it has become expedient for the government to take a hand in the development of the petroleum of the country," said he yesterday." Japan is still producing much coal, both in the provinces of Higen and Klushiu, but the output is not keeping stride with the growing demand, which has been increasing the past few years, owing to great strides along manufacturing lines.

"In the last few years important discoveries of oil have been made in Northern Japan, and in the provinces of Echigo and Totomi, oil of various grades and gravity has been brought to light. So far, the development has been carried on without much system, the majority of the operators having little experience. Nevertheless, many fields have shown indications of great possibilities, and the government has decided to assist by suggesting the best methods to operators."

After inspecting the local field, Dr. Otshua will take in the Kern River district. He was one of the interested spectators at the Chamber of Committee vesterday, expressing much surprise at the wonders of Secretary Wiggins's show.

FIRE IN MIDWAY.

FIRE IN MIDWAY. The Chanslor & Canfield company had an interesting experience with fire at its camp in the Midway field this week. The fire started at rig No. 2, and it looked for a while as though the derrick was doomed. The crew fought with water and steam, and it was owing to its efforts that the property was saved with but slight damage. The origin of the fire is not known.

LAND OFFICE RULING. SECTIONS OPEN TO ENTRY.

BAKERSFELD, April 11.—A. C.
Maud, United States Commissioner at
this point, has received information
as to government lands suspended by
the Commission of General Land Office

agricultural entry in and adjacent to the Kern River oil fields. The information is that suspension has been removed.

The land was withdrawn when the oil excitement was at its height pending examination as to its character, and now, according to the latest order, all the territory, as it is not occupied, is open to entry. Beside this, many claims heretofore filed and which have been held in abeyance may now be proved upon. The lands affected are all of townships 25-26, 25-27, 25-28, 28-26, 25-27, 25-28, sections 1 to 24, 27-27, townships 27-28, 27-34, 28-27, townships 27-28, 27-34, 28-27, townships 25-29, 29-27, sections 11 and 12, 13 to 36, 29-28 and all of township 29-29.

A man is naturally suspicious of these physicians who make beld to promise impossible cures. The thoughtful physician, realizing the complexity of men's diseases, is most guarded in his promises. Looking backward and at the present, we find that the physician whose promises are greatest invariably has the smallest practice. A man will not intrust his life and health to irresponsible hands. Our promises are to treat you theroughly and honestly odern and scientific treatment.
